IADLEST offers services built to enhance and improve the framework of the training programs essential to the success of our nation's law enforcement community.

These services include providing critical post-evaluation feedback and improvement recommendations to training providers as part of our Accreditation Service, sharing best practices via our Model Standards Service, or narrowly focusing on, as a means to improving, a specific training element via our Auditing Service.

It is in this spirit of growth and responsiveness that the International Association of Directors of Law Enforcement Standards & Training have resolved to establish a set of MODEL STANDARDS to which all states may aspire.
